

Bombora secures EIP Program Funding

Bombora Wavepower
27th October 2015

Media Release

Bombora Wave Power, has been granted \$130,861 for the advancement of its wave energy technology. Bombora is one of the 20 companies to benefit from the \$7.3 million in commercialisation grants assistance.

Wyatt Roy, Assistant Minister for Innovation, said: *“The projects featured in this announcement are brilliant examples of Australia’s innovative ideas, and include the world’s first Kinetic Manufacturing 3D printer and an award-winning wave energy converter system. The commercialisation of these products will advance our industries and create new opportunities, as well as ensuring Australia’s intellectual property is protected.”*

Bombora Executive Director, Shawn Ryan said “This is a fabulous outcome for Bombora.”
