

Pawsey Supercomputer Centre Opening

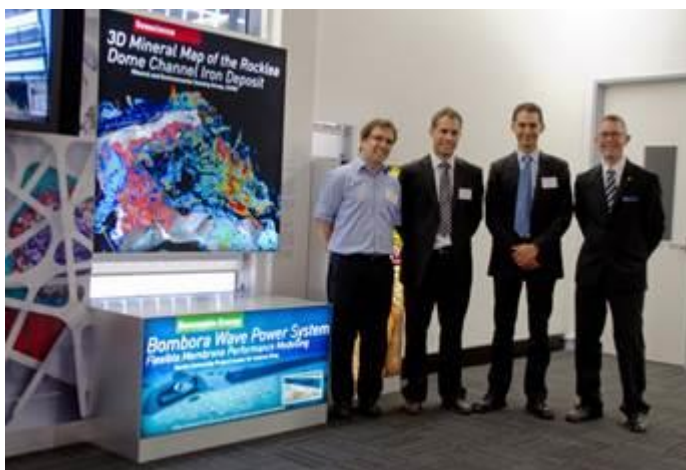

Bombora Wavepower
15th November 2013

Media Release

Bombora representatives had the privilege of joining fellow distinguished guests at the official opening of Pawsey Centre by the Hon Colin Barnett, Mr Steve Irons MP, representing the Hon Ian Macfarlane MP, Dr Megan Clark, CSIRO Chief Executive and the Hon Mal Bryce, iVEC Chairman.

Today marks a great day for advanced computer research in Western Australia. Shawn Ryan (Executive Director) said, "Supercomputing at facilities such as Magnus affords Bombora the luxury to advance and iterate our design many times before we even have to put a prototype in salt water." Bombora is undertaking Computation Fluid Dynamic assessments and design refinement of its Wave Energy Converter system in conjunction with Curtin University and the IVEC facility.

The greater Bombora Team at the Pawsey centre opening. L-R Dr Andrew King (Curtin University, project leader), Shawn Ryan (Bombora, Director), Glen Ryan (Bombora, Director), Andrew Beveridge (Ivec, Program Leader: Industry & Government Uptake program).
